# Personal Video Phone

## High Quality Synchronized Voice and Video

- H.264 compression codec operating as low as 100 Kbps
- 30 frames-per-second, with less than 1/6th second delay

## Easy to Install and Use

- Uses existing high-speed Internet connection
- No PC needed
- Operates as easily as a regular telephone

## Video Messaging

- 20 minutes of video messaging
- Personalized video greeting

## Cordless Phone (2.4 GHz)\*

## Functional Design Facilitates Visual Experience

- Eye-level screen and camera with self-viewer
- Full duplex speakerphone allows hands free conversation
- One-touch privacy controls for video and voice

## Also Makes Conventional (or VoIP)\* Calls

- Uses existing household phone number
- Picture-based caller ID and phonebook

\*PVP 1000 only
